

SHIFTING THE LIMITS

FRONIUS IG PLUS – IG PLUS V SERIES TEMPERATURE RANGE -40°F

Wels, 11.05.2012

FRONIUS International GmbH

hereby confirms, that the PV inverters of the

FRONIUS IG Plus and IG Plus V series

are able to withstand an ambient temperature down to

-40°F /-40°C

Without becoming unsafe or getting damaged. The unit switches off (State 304) at a temperature below -13°F/-25°C and is going back to normal operation as soon as temperature rises above.
